UVA (BL) Lamps for Insect Trap / Electronic Fly Killer

For restaurants, catering and the F & B industries, cleanliness and protection of food are very important. Insect, and particularly flies poses a direct threat to food. The easiest and effective way to reduce their presence is by attracting them to the electronic fly killer

The eyes of the insects are sensitive to certain wavelength of the light spectrum. This UVA lamps perfectly match the eye sensitivity of houseflies and in this way attract more insects.

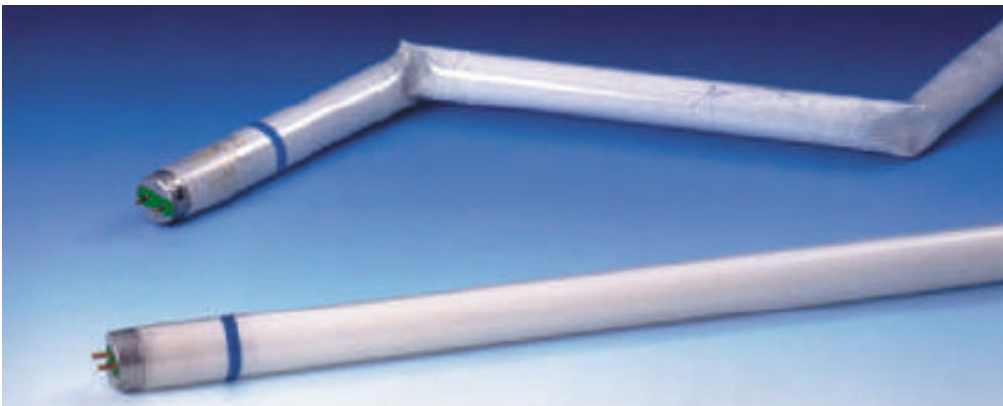

Better Environment choice

UVA insect trap lamp offered contain low level of mercury and do not contain any lead. This help in better environment protection.

Additional Protection With Shatterproof Sleeve

For additional protection we also offer Philips Secura version with shatterproof sleeve. The shatterproof sleeve helps to keep all glass and components together in case of accidental lamp breakage. As a result, you can eliminate any risk of glass splinters in products due to lamp breakage.

Please contact us for range availability.
